

# Gender Pay Gap 2023

Equinox Learning Trust has over 250 employees, therefore it is required to complete the gender pay gap analysis. This report is based on a snapshot of 31 March 2023, and provides a comparison to the previous year in brackets where appropriate.

Men and women are paid equally for doing equivalent jobs across the Trust. The Trust uses pay scales based on the School Teachers Pay and Conditions document for teachers and academy-based leaders. For support staff, the Trust follows the job evaluation / grading structure adopted in the local authority area with pay scales set by the NJC.

The overall split of females and male roles across the trust is 83.3% (84%) females and 16.7% (16%) males. As is common for the education sector there are significantly more females within the Trust. This is often due to flexibility of schools to offer term time only, and school hour contracts.

## Pay Qualities

The split of men and women in each quartile is detailed below. The slight increase in men noted above is reflected in a slight increase across quartiles 1, 3 and 4.
